

BENEFITS

Fights Mold, Germs,
Allergens, Odors

Improved Indoor
Air Quality

Cleaner Central
Air System

Maintenance &
Energy Savings

Chemical-Free
Disinfection

Safe & Effective

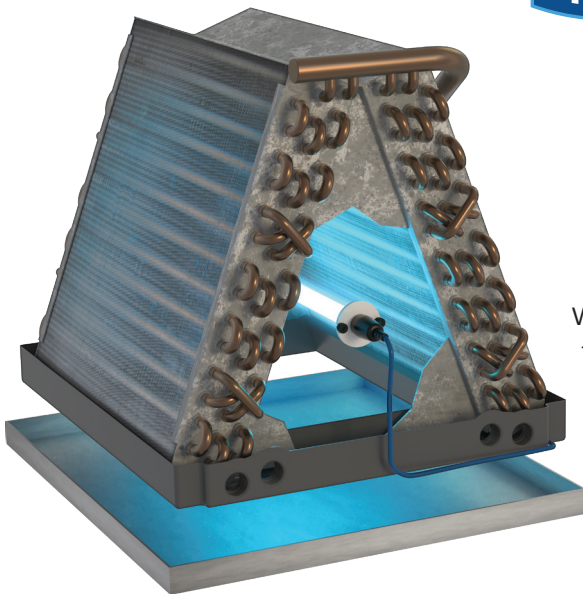

Breathe Easy!

A whole-house air purifier from Fresh-Aire UV® can benefit your family in many ways. These systems not only clean the air of dangerous and unpleasant biological, chemical, and odor contaminants, they also save money by keeping the central air system cleaner. Moldy coils waste energy and shorten the lifespan of the system.

A Perfect Fit for Your AC

Not all central air systems are the same, fortunately there's a Fresh-Aire UV® system to fit them all. For essential HVAC disinfection consider Blue-Tube UV® or AHU Series 1. For disinfection plus ozone-free odor control choose one of our APCO® systems. For all the above with the addition of MERV 11 air filtration consider our Purity™ system. And Mini UV™ is perfect for ductless mini-split AC systems.

Viruses

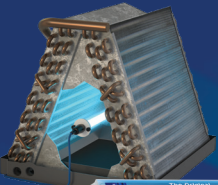

Allergens

FRESH-AIRE UV

Whole-House UV Air Purifiers

Blue-Tube UV®

The original, patented, low-voltage UV light kit kills germs, mold and allergens in the air. Saves energy and reduces maintenance costs by keeping your central air system clean.

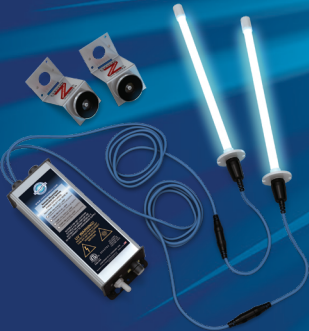

APCO®

Award-winning duct mounted APCO® technology uses a combination of Activated Carbon, UV light, and titanium dioxide to fight odors, germs, viruses, and mold without producing harmful ozone.

AHU Series 1

Mounts in the air handler for maximum UV effect. Heavy-duty moisture resistant components. Many options available.

Mini UV™

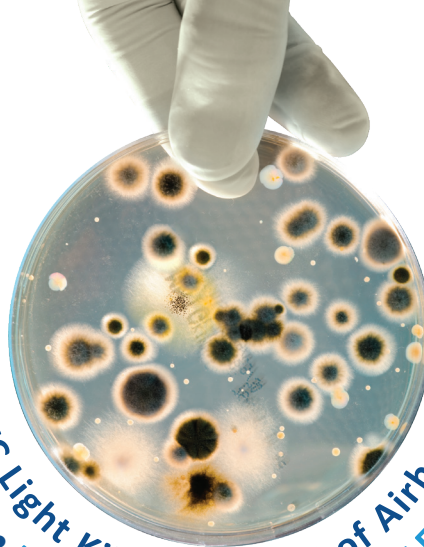

The first germicidal UV light designed specifically for Mini Splits and other limited-space applications. 9" UV-C lamps fit in the tightest spaces.

Fresh-Aire UV® Purity

The ultimate whole-house air purification system. Advanced filtration with germ-killing UVC light and PCO odor control.

UVC Light Kills Over 99% of Airborne
MOLD • BACTERIA • VIRUSES • ALLERGENS
After the first 24 Hours of Use*
