

# Save on Ice Machine Cleaning & Maintenance

## Sterilize Mold & Bacteria

Ice machine maintenance has become easier, safer, and more cost-effective with ICE UV™. UV-C light works continuously to sterilize mold, microbial growth & dangerous pathogens that thrive inside the dark, damp, cool interiors of ice machines, ice flakers and water dispensers. The ICE UV™ and ICE UV Mini™ systems are designed to produce just the right amount of UV-C light; enough to sterilize microbial contaminants including mold, viruses & bacteria without damaging plastic materials inside the ice machine.

## Think Small

There can be too much of a good thing! Because the 10-watt UV-C lamp in ICE UV<sup>™</sup> may be too powerful for use in most countertop ice & water dispensers we've introduced ICE UV Mini<sup>™</sup> which features a pencil-thin 4-watt UV-C lamp and a compact power supply.
